## WORK EXPERIENCE

### 2024/04 - PRESENT

Ultra Technologies

#### Java Developer

- I have extensive knowledge and experience in Java and related technologies. I am skilled at creating innovative solutions and solving complex problems.
- Effective communication and collaboration on projects is important and I excel at it. I am a good team player and have the ability to work independently.
- Working together with my customers to help them achieve their goals is a great source of motivation for me.
- It is important for me to follow the developing technology and constantly renew myself. I promise to maintain this attitude in your project and work in a quality and efficient manner.

### 2022 - 2023

Tedroid

#### Web Content Writer

- I focus on maximizing my employers' return on investment by using resources efficiently.
- I closely follow market research, identify new trends in the industry, understand the needs of target audiences and analyze competitors' strategies.
- It is important for me to ensure brand consistency across websites and create content that aligns with marketing objectives.
- I have strong communication skills and like to work collaboratively. I have a creative mindset and am eager to develop new and unique approaches for each project.
